Bellevue, NE 68123

Ref. No. 07-0099

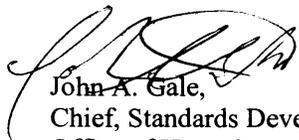

Dear Mr. Bruce:

This is in response to your May 17, 2007 letter concerning the applicability of the Hazardous Materials Regulations (HMR: 49 CFR 171-180) to fireworks. Specifically, you ask whether Class B 1.3G fireworks, sold for personal, non-commercial use and transported in personal vehicles, are subject to the HMR.

The answer is no. Private individuals who purchase fireworks not requiring a Bureau of Alcohol, Tobacco, and Firearms (ATF) license for their own personal use and transport them in personal vehicles are not subject to the HMR.

I hope this information is helpful.

Sincerely,

John A. Gale,
Chief, Standards Development
Office of Hazardous Materials Standards

Washington, DC 20590

Dear Sir or Madam:

This is a request letter for clarification of rules and regulations if reference to the transportation of fireworks for non-commercial use.

Could you please reply in written format (email) commenting on the rules for transportation of Class B 1.3G fireworks that are sold to customers for personal, non-commercial use and transported by such persons in their personal vehicles whether or not they are subject to the HMR?

Sincerely,

Christopher Bruce
